

You're invited!

Governance and Leadership Forum

From Transition to Transformation... the road ahead for health care in Ontario

Ontario's Patients First Act laid the foundation for a significant transformation of provincial and local health care systems, including the transition of home and community care services into the Central West LHIN on May 31st of this year.

With transition now in the rear view mirror, the important work of health system transformation has begun in earnest, begging the question:

"What is next on the road ahead?"

Headlined by special guest **Dr. Bob Bell, Deputy Minister of Health and Long-Term Care**, you are invited to attend the Central West LHIN's upcoming Governance and Leadership Forum where you will gain important insights into the future of Ontario's health care system and the transformative work underway provincially and locally.

We want to hear from you! Come prepared to share your input on health system planning through an interactive question and answer session with Dr. Bell and roundtable discussions.

Since transition, both the province and Central West LHIN have kept their feet on the gas, continuing to work hard on developing a health care system that is easier for patients to navigate, better co-ordinated, more open and accountable, and one in which patients and their families will have a stronger voice in the planning of their health care services.

This is a great opportunity for you to learn more about what is taking place with respect to both provincial and local health system transformation.

Space is limited so RSVP today to Erica.Jeffery@lhins.on.ca. When you do, please let us know of any dietary or mobility considerations you may have. Erica will also be happy to answer any questions you may have.

**TUESDAY,
NOVEMBER 14, 2017**

5:00 – 8:00 PM

Dinner (Buffet) | 5:00 – 5:30 PM
